

Gustavo Domínguez

Project Manager | Business Technology & Digital Transformation

Caracas, Venezuela (Remote) | +58 414 139 0145 | gndg89@gmail.com | linkedin.com/in/gustavodominguezg

PROFESSIONAL SUMMARY

Project Manager with 10+ years leading projects end-to-end — from scope and requirements definition through delivery and results measurement — across LegalTech, HealthTech, AgTech, and FinTech. Experienced coordinating cross-functional teams (engineering, legal, operations) and executive stakeholders to take initiatives from business case to MVP, applying Agile/Scrum methodologies, risk management, and budget control. Track record of measurable outcomes: a 35% reduction in rework cycles through improved requirements definition, and a 330% increase in patient volume for a one-person practice scaled from zero in under 2 years. Founder of two ventures, with hands-on experience managing budget, teams, vendors, and timelines from the ground up. Bilingual (English/Spanish), with a background in international business from Florida International University.

- Risk Management
- Digital Transformation
- Requirements Gathering & User Stories
- Process Optimization (BPMN)
- Bilingual Executive Communication (EN/ES)
- Stakeholder & Cross-Functional Team Management
- KPI Design & Dashboards (Power BI)
- Change Management

PROFESSIONAL EXPERIENCE

Project Lead / Technology Entrepreneur

Independent Ventures / Multiple Verticals · Caracas, Venezuela | Jan 2025 – Present

- Led end-to-end delivery of 5 AI-powered SaaS platforms (LegalTech, HealthTech, PropTech, AgTech, FinTech): defined scope, functional requirements, user stories, and acceptance criteria, cutting rework cycles by ~35%.
- Managed project timelines and budgets, including 12-month financial models and P&L projections, identifying monetization gaps and adjusting plans based on results.
- Designed and tracked project KPI dashboards (CAC, MRR, retention, churn) to drive data-based decisions across multiple concurrent initiatives.
- Directed the digital transformation project for Centro Odontológico Charris — a one-person dental practice open less than 2 years — implementing a WhatsApp-integrated virtual agent for scheduling and follow-up, achieving a 330% increase in weekly patient volume over the pre-automation baseline.
- Managed the rollout of an AI-driven farm management system for Agropecuaria La Misericordia, coordinating technology vendors and end users, delivering a 138% increase in daily production.
- Served as Project Manager for the build of Causis (causis.legal) — a 9-module legal-tech platform — from business case through MVP, coordinating technical and legal stakeholders.

Founder & Co-Owner

Xpeedy · Caracas, Venezuela | Oct 2020 – Feb 2024

- Founded and managed the scale-up of an urban messenger and logistics venture end-to-end: operational planning, team leadership, and corporate client relationships.
- Owned budget, cash flow, and financial planning for the business, making data-driven investment decisions.
- Implemented an operational KPI tracking system (delivery times, customer satisfaction) to manage day-to-day service execution.
- Coordinated strategic B2B partnerships, managing external stakeholder expectations and tailoring value propositions by segment.

Business & Marketing Coordinator

LEGA Abogados · Caracas, Venezuela | Jan 2019 – Mar 2020

- Coordinated business development projects end-to-end: client acquisition, proposal development, and campaign KPI tracking.
- Mapped and documented internal processes, identifying bottlenecks and leading improvement initiatives that reduced administrative workload.
- Supported strategic planning sessions, consolidating data from multiple sources for executive decision-making.

Administrative & Business Analysis Assistant

Santa Barbara Airlines & PAWA Dominicana (Grupo Condor) · Miami, FL | Oct 2015 – Feb 2018

- Coordinated administrative workflows across a multinational team, ensuring regulatory and operational compliance across 8 countries.
- Contributed to business analysis projects supporting fuel cost management and strategic operational planning.

KEY PROJECTS

- Causis (LegalTech SaaS): End-to-end project management from business case and definition of 9 functional modules through MVP; go-to-market strategy and competitive analysis.
- Digital Transformation — Centro Odontológico Charris: One-person practice open less than 2 years; planned and implemented a WhatsApp virtual agent for scheduling, driving +330% weekly patient volume over baseline.
- AI Farm Management System — Agropecuaria La Misericordia: +138% daily production.

EDUCATION

- Bachelor of Business Administration (BBA), International Business — Florida International University (FIU), 2015
- Associate in Arts (AA), Business Administration — Broward College, 2013
- Google Data Analytics Professional Certificate — Google / Coursera
